PROFESSIONAL SUMMARY

Aspiring Software Engineer with strong foundations in Data Structures and Algorithms, Full-Stack Development, and Object-Oriented Programming. Experienced in building AI-powered and MERN-stack applications using React.js, Node.js, Express.js, Flask, MongoDB, and REST APIs. Active competitive programmer with hands-on experience developing end-to-end software solutions and a passion for scalable system design.

TECHNICAL SKILLS

- **Programming:** C++, JavaScript, Python, Java, SQL
- **Frontend:** React.js, HTML, CSS, Tailwind CSS
- **Backend:** Python(Flask), Node.js, Express.js, REST API Development
- **Database:** MongoDB, MySQL
- **Tools:** Git, GitHub, Postman, VS Code

PROJECTS

- **AI DsaMentor - DsaHintAssistant** | *Python (Flask), HTML, CSS, Gemini API* Live
 - Developed an AI-powered web application to help students master Data Structures and Algorithms (DSA) using Socratic-style tutoring.
 - Integrated Gemini API with prompt constraints to provide conceptual hints and guiding questions while preventing direct code generation.
- **MERN Notes Application** | *MongoDB, Express.js, React.js, Node.js, JWT* Live
 - Developed a production-grade Notes Application using the MERN stack (MongoDB, Express.js, React.js, Node.js).
 - Implemented secure authentication and authorization using JWT and bcrypt, ensuring protected access to user data.
 - Deployed the application on Render and Netlify with MongoDB Atlas and designed RESTful APIs for note management.
- **AI-Powered Team Collaboration Platform** | *React.js, Node.js, Express.js, MongoDB, Socket.io, Redux Toolkit, Tailwind CSS, Groq AI* Live
 - Built a full-stack real-time collaboration platform with messaging, notes, and AI-powered workspace features using the MERN stack.
 - Implemented secure JWT authentication with httpOnly cookies and role-based access control (Admin/Member), along with real-time chat using Socket.io with rooms, typing indicators, and live status tracking.
 - Integrated Groq LLM (Llama 3) for AI-based note summarization and RAG-powered workspace Q&A, and designed scalable REST APIs with validation, error handling, and middleware protection.

COMPETITIVE PROGRAMMING

- Solved 250+ problems on LeetCode, achieved a max rating of 1500, and participated in 25+ coding contests. [Profile]
- Achieved a 2-Star rating on CodeChef with a max rating of 1480 and participated in 60+ coding contests. [Profile]
- Ranked 167th in the university on GeeksforGeeks and solved 130+ coding problems. [Profile]

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle
- Python Essentials – Cisco Networking Academy
- JavaScript Essentials – Cisco Networking Academy
- HTML & CSS Essentials – Cisco Networking Academy

EDUCATION

Vignan's Institute of Information and Technology
B.Tech in Computer Science and Engineering
CGPA: 8.2/10.0

Visakhapatnam, AP
2024 – 2027
